EXPERIENCE

FRONT-END DEVELOPER | ANGULAR

Digitate, TCS | June'19 - Present

- Develop UI components using Angular.
- Create new charts using D3js / Highcharts for intelligent data visualization.
- Integrate HTTP-Rest APIs.
- Create widgets for re-usability.
- Maintain a custom framework written on top of the Angular framework.
- Create dashboard with charts.

SUMMER INTERN | ANGULAR

ThePolitics.in | Feb'18 - Jul'18

- Created a maps-dashboard, with D3js, to visualize past election data for various states of India.
- Developed an efficient scrapper/bot to fetch realtime data/posts from facebook/twitter APIs of multiple users.
- Developed a tool to merge multiple topojson files of districts to create a single feature file with all districts of a given state.
